

## REVIEWER ROUTE SUMMARY

# Reviewer Route Summary

For Muhaiminul Hossain - public review route, committee materials and protected diligence sequence.

Reliance boundary: Terra Vita Hub structures evidence, routing, assurance and export posture. It does not approve, finance, regulate, rate, certify or replace authorised institutional judgement.

## Purpose of the Reviewer Route

The reviewer route presents a structured, committee-aligned sequence that makes governance posture, reviewer controls and institutional boundaries legible before entering protected diligence.

## Public Review Layer

- Transparency and integrity: public limits, safeguards and risk posture.
- Institutional review summary: authority boundary, reviewer accountability and suitability.
- Why institutions use the Hub: governed, attributable and export-ready decisions.
- Who this layer serves: lenders, DFIs, ministries, climate funds, programme operators and auditors.

## Committee Materials

The committee layer provides governance architecture, operating boundaries, evidence requests, assurance posture and route instructions before evidence access is granted.

Document control: v347 public visual QA sweep. Generated for Terra Vita Hub search, institutional review routing and artefact integrity verification. No confidential or programme-specific evidence is included.
