

Terra Vita Hub - Example Committee Pack Skeleton

Structure-only committee pack skeleton for evidence-heavy programme review.

Section	What the reviewer sees	Protected boundary
Purpose and authority	Review purpose, authority boundary and decision reservations.	Institution-specific mandate stays protected.
Evidence inventory	Lineage, source attribution and evidence status.	Live evidence files stay protected.
MRV attachment	Methodology references and signal interpretation.	Programme MRV records stay protected.
Exceptions and conditions	Override, escalation and condition posture.	Named reviewer actions stay protected.
Export and audit	Export register and reconstruction notes.	Export logs and audit samples stay protected.

Reliance boundary: this public redacted template does not contain live deployment data, credentials, security findings, reviewer records, audit samples, or programme-specific proof. Those artefacts are provided only under protected diligence or NDA where applicable.
